

BIRD and FLOWER CALENDAR

Bulletin 3

1905

Previously reported:

- (1) March 5 - Robin - Newburgh and Cleveland
- (2) March 8 - Song Sparrow - Newburgh; Cleveland Heights, March 11.
- (3) March - Canada Goose (*Branta Canadensis*) Reported by Dr. Haydn and others for Cleveland, Newburgh.
- (4) March 10 - Bronzed grackle (*Quiscalus quiscula*) Newburgh, Mr. Pallister.
- (5) March 11 - Meadowlark (*Sturnella magna*) Euclid Heights, Dr. Hulme; Randall (many), March 18, Mr. Pallister.
- (6) March 10 - Bluebird (*Sialia sialis*) Berea, Mr. W. B. Herms; March 11, Cleveland Heights, Mr. James, and Newburgh, Mr. Pallister.
- (7) March 17 - Mourning Dove (*Zenaidura macroura*) Miss Kennan, and Euclid Heights, March 19, Dr. Hulme.
- (8) March 17 - Killdeer Plover (*Aegialitis vocifera*) Miss Solberg.
- (9) March 18 - Flicker (*Colaptes auratus*) Randall, Mr. Pallister.
- (10) March 18 - Towhee Bunting (*Pipilo erythrophthalmus*) Washington Park, Mr. J. B. Parker; Randall, Mr. Pallister.
- (11) March 19 - Towhee Bunting, one, Newburgh, Dr. Volney.

The following resident – or not strictly migratory – birds have been reported for February and March:

The Crow
Red Shouldered Hawk
Owls, probably several species
Nuthatches
Chickadees
Juncos or Snowbirds
Cardinal Grosbeaks (Newburgh)
Red-bellied Woodpecker

March 15 – Skunk Cabbage (*Spathyema fostidus*) Wade Park – in bloom about March 5.

The following birds, if not arrived, are soon due:

Phoebe
Chipping Sparrow
Vesper Sparrow
Field Sparrow
Brown Thrush
Kingfisher
Redwinged Blackbird
House Wren
Bob White

Most of these birds can be identified by comparing their color and size with specimens in the collections of the biological laboratory, and with greater certainty if song and habits are noted.
